- Any Club which has affiliated with the Association for any season and finds it necessary to withdraw once grading has been completed, shall forfeit the affiliation fee.
- The Club Secretary's signature on the Association confirmation form signifies the club's acceptance of all SAUCNA Regulations, Playing Conditions and Procedures.

Registration of Players

- Regular players in a team **MUST** be registered in the online system **PRIOR** to the first match.

- The club secretary signs the Association Confirmation form acknowledging that this agreement has been made by all regular players for the club.

Registration of Fill-in players

- Ideally players should be registered in the online system **PRIOR** to them playing. This avoids playing a player who may be registered for another club.
- If the registration of any player is not lodged **ONLINE** by the due date, then the team could forfeit the points for the match in which such player took part and after that time all matches played by the player's Club could be forfeited until such registration has been received.
- The Association Registrar shall notify the Club Secretary should a club become liable to forfeit because of unregistered players.

Player Eligibility (see also Finals)

Two or More Teams in the same grade

Team Re-grading

- In all grades, re-grading will be considered after **one full round of matches** is completed (ie 5 matches for 6 team grades (where all grades in a division are 6 team grades) or 7 matches for 8 team grades or divisions that are a mix of 6 team and 8 team grades).
- Updated programs will be available on the SAUCNA website.

Uniforms, Colours, etc.

Preamble: SAUCNA acknowledges the desire of netball players to participate in netball in a uniform they feel comfortable wearing. SAUCNA wishes to move to a more inclusive uniform policy, where we approve the wearing of a mix of uniform styles within a club/team. Appendix A – Extreme Weather Conditions

SAUCNA recognises that the game of netball is traditionally an outdoor, winter sport, and the preference is that all matches are played to schedule.

SAUCNA expects that correct clothing and suitable footwear is worn by all players and officials at all times, and that all players and officials are responsible for ensuring that they have access to appropriate protective clothing, sunscreens, supply of drinking water and access to dry clothing, if required before, during and after matches.

Although severe weather forecasts may result in a blanket cancellation of games in advance, this is unlikely, and decisions regarding cancellation, interruption or abandonment of matches would normally be made on a time slot basis, either immediately prior to, or during play.

Match conditions may be adjusted (see below for permitted adjustments), due to prevailing conditions at the time, or in order to have excess water drain from playing surfaces, however these may only be adjusted by the nominated Court Supervisor and must be advised to the Association Secretary and Registrar for noting.

Matches may be interrupted by the Court Supervisor to allow intense weather conditions to pass, before play is re-commenced. Umpires retain the right to hold time on individual courts if they feel weather conditions make this necessary.

The decision to cancel, interrupt or abandon matches will be made by the Court Supervisor, and will be based on reasons of player and umpire safety, and not on the comfort of players, officials or spectators. The Court Supervisor will monitor weather reports and radar information and consider weather warnings supplied by the Bureau of Meteorology. Court supervisors located at suburban courts in the Winter Season may contact the Association Court Supervisor for advice at any time.

The Association also is aware that very young players may be more susceptible to distress caused by intense conditions.

Situations where cancellation of matches may apply:

- Forecasts of extreme heat, catastrophic fire danger, or prolonged extreme violent weather.

Situations where interruption to play may apply:

- Short periods of intense rain, hail or strong winds
- Short periods of localised thunderstorm or lightning activity (lightning and thunder less than 15 seconds apart)
- Foreign objects being blown onto the court
- Court furniture or court fixtures being disturbed or damaged
- Player safety being affected by the force of the wind

Situations where abandonment of play may apply:

- Prolonged localised thunderstorm or lightning activity
- Prolonged intense hail or sleet activity
- Prolonged extremely heavy rain or high wind speeds
- Excessive water remaining on court playing surfaces.

Court Supervisor Procedures

- Where it is identified that matches should be abandoned the court supervisor will instruct all umpires to stop the match by holding time and arrange for the players to move to a safe area.
- Once the conditions have been reassessed the court supervisor will advise players and officials that matches will either:
 - Recommence shortly (giving a suitable time frame for players to warm up again if the delay has been significant) and all players and officials must return to the court and take their positions. Play will recommence from where the ball was when time stopped and the remainder of the time for that quarter, and any subsequent quarters will be played, OR
 - Advise that conditions are no longer safe for the match to continue and that the match is abandoned. Scores and points are allocated based on the time of abandonment (see Match Abandoned conditions on page 9)

Adjustment of Playing Conditions

- If matches are not cancelled but the Court Supervisor deems the weather to be unsuitable for normal playing conditions, matches will go ahead however the following alterations may be applied at the beginning of the match.
 - Quarters may be shortened however they shall be no shorter than 10 minutes duration and all quarters will be of the same duration for that match.
 - An additional drinks break may be taken during each quarter for no more than 1 minute at the halfway point of the quarter.
 - Breaks may be lengthened by 2 minutes each break to allow players adequate recovery time.
 - **No other alterations to playing conditions are permitted.**
- Match conditions may only be altered by the nominated Court Supervisor, both teams and umpires are to be made aware of the alterations and the reasons for the changes.
- All alterations made, together with the reasoning behind the decision, must be advised to the Association Secretary and Registrar in writing within 2 days of the completion of the match.

Appendix B – Hot Weather Conditions

- The onus is on each club and each team to be aware of this procedure and to watch for such an announcement.
- If the Hot Weather Conditions are invoked and matches are cancelled, no points will be awarded for that round of matches.

Winter Competition

- Matches for the day will be cancelled if the predicted temperature during the day is deemed that it will be too hot to play by the SAUCNA Board or relevant subcommittee.
- It will be announced on the SAUCNA Facebook page and the SAUCNA website no later than 9.00am on the day of the matches.

Summer Competition

- Matches for the night will be cancelled if the temperature is deemed that it will be too hot to play by the SAUCNA Board or relevant subcommittee.
- It will be announced on the SAUCNA Facebook page and the SAUCNA website no later than 4.30pm on the day of the matches.

Appendix D – Discipline Procedures

The SAUCNA Board, in response to concerns from the Umpire’s subcommittee, have endorsed the following procedures to be put into practice IMMEDIATELY in an attempt to curb the levels of abuse being experienced by umpires over the past years. Netball Australia has advised Associations that they are able to implement such procedures in local competitions.

Coaches/Team Officials/Team Bench players

- Any team official who is located on the team bench is subject to the INF Rule 13.3 and as such the umpire may Caution, Warn or order that the person be removed from the playing area.
- Should the official be subject to the last option, removal from the playing area, and that person refuses to leave then the umpire will ask the away team timer to set 30 seconds on the clock. After this time if the person remains then that team will forfeit the match and a forfeit score for the relevant match level will apply.
- The umpires will call time, inform both captains, ensure the scorers both identify on the cards that the match is a forfeit and then both umpires leave the court to the safety of the clubrooms (or other such safe location at suburban courts) to advise what they have done.
- The scorecards can be signed by the umpires later.

Spectators

- Spectators are bound by the SAUCNA Code of Conduct Regulation.
- If the umpire can identify a spectator contravening this regulation, the umpire will hold time and then a warning shall be issued by the umpire to the spectator/s concerned.
- If the behaviour continues the umpire will hold time and request that the spectator/s remove themselves from the playing area (definition needed).
- If the spectator/s refuse to leave, then the umpire will ask the away team timer to set 30 seconds on the clock. After this time if the person remains then that team will forfeit the match and a forfeit score for the relevant match level will apply.
- The umpires will call time, inform both captains, ensure the scorers both identify on the cards that the match is a forfeit and then both umpires leave the court to the safety of Management to advise what they have done.
- The scorecards can be signed by the umpires later.

In the procedure above the term “playing area” can be defined as follows:

- Where the netball courts being used are located on private property (eg church or school grounds) the person being removed can be asked to leave the property or at least far enough away from the court that they cannot be seen or heard by any players, officials or spectators.
- Where the courts are located on public land, eg Association Courts, parklands or other parks, the person being removed must move at least the equivalent of one court away from the court the match is being played on so as they cannot be seen or heard by any players, officials or spectators.
